OZONEX
PURE WATER

Presentation

My Ozonex is equipped with a large 10-inch touch screen offering a real-time overview of the pool and its equipment: the synoptic view. With a simple click, the pool maintenance employee can access the equipment of his choice and control it easily. He can also consult the product consumption report (per day/week/month) and obtain a visual on the level of products present in the tanks. The control of the filtration is also easy, offering the possibility of creating and managing different time slots according to the number of people in the establishment.

Analysis chamber

The transparent PMMA measuring chambers are used for a better view of the water circulation. Adaptable in monobloc or modular version, these analysis chambers can receive from one to several probes and measurement sensors: temperature, pH, chlorine, water flow, amperometric.

Dosing pump

Ozonex electromechanical dosing pumps are used to dose all types of liquid chemicals used for pH and chlorine management. The flow rate of the electromechanical dosing pumps is chosen according to the volume of water in each pool to be treated.

The kit includes

✓ Pre-mounted 800x800 wall bracket.
✓ 1 My Ozonex automatic regulator.
✓ 1 probe holder + pH/REDOX/temperature probe.
✓ 1 acid dosing pump + 1 for chlorine.
✓ 1 pump connection kit + injection cannulas + crystal tube + bin bottom cannulas + 316L stainless steel injectors.
✓ 1 ''management PRO'' application kit for swimming pool owners. (remote management of your customer base)

Probes and sensors

- ✓ water temperature
- ✓ pH
- ✓ REDOX
- ✓ filter pressure
- ✓ amperometric 1
  (automatic calculation of free/active chlorine)
- ✓ amperometric 2
  (automatic calculation of total/combined)
- ✓ air temperature
- ✓ hygrometry
- ✓ atmospheric pressure

Automatic device management

- ✓ filter pump (maximum 3 pumps)
- ✓ lighting
- ✓ heating
  (heat pump, solar, exchanger, heater)
- ✓ filter (pressure sensor)
  (sand, diatoms, sock)
- ✓ disinfectant (ozonator or UV lamp)
- ✓ booster
- ✓ sensors
- ✓ automatic regulators
  (pH-, pH+, REDOX, anti-algae)
- ✓ fountain

Presentation

The SMART'OZO connected automatic regulator is the ideal solution for your peace of mind. It manages the parameters of your pool for you, such as pH and REDOX, without being in default or in excess of product, it analyses your pool water all day long in order to be in line with the predefined set points. But it does not stop there, for the complete and natural disinfection, the integrated ozonator will give you whole satisfaction, it will destroy in only one time the organic matters, the germs, the bacteria and the viruses present in water as well as a great part of chloramines.

Analysis chamber

The measuring chambers are used for a better water circulation. Adaptable in monobloc version, these analysis chambers can receive from one to several probes and measurement sensors: temperature, pH, chlorine.

Dosing pump

Ozonex peristaltic dosing pumps are used for dosing all types of liquid chemicals used for pH and chlorine management.
The flow rate of the dosing pumps is 1.5 l/h.

The kit includes

✓ Pre-mounted 776x400 wall bracket.
✓ 1 SMART'OZO automatic regulator (with integrated ozonator).
✓ 1 probe holder with pH/REDOX probe.
✓ 1 acid dosing pump + 1 chlorine dosing pump.
✓ 1 pump connector kit + injection cannulas + crystal tube + bottom cannulas + injectors in stainless steel 316L.
✓ 1 application kit ''management PRO'' for swimming pool owners. (gestion à distance de votre parc clientèle)

Probes and sensors
- ✓ water temperature
- ✓ pH

Presentation

My Ozonex mini is a connected automatic pH- and REDOX regulator that can be controlled remotely by smartphone or tablet. With a simple click, your customer can access the equipment of their choice and control it easily. He can also consult the product consumption report (per day/week/month) and obtain a visual on the level of products present in the tanks. The control of the filtration is just as easy, offering the possibility of creating and managing different time slots according to the number of people in the establishment.

Our ozonators for public swimming pools are made to measure.

In order to respond correctly to your price request, we need several pieces of information concerning the pool to be treated :

- the volume of water in the pool
- the number of filtration pumps
- the water flow rate of each filter pump

EX200	EX400	EX400-SP

Ozonator with 2 corona generators and 1 ozone outlet for 1 filter pump of 50 m³/hour.

Ozonator with 4 corona generators and 1 ozone outlet for 1 filter pump of 100 m³ water/hour.

Ozonator with 4 corona generators and 2 ozone outputs for 2 filter pumps of 50 m³ water/hour each.

They include :

✓ 1 metal box
✓ 1 front with identification :
  - power-on lights (green)
  - ozone production lights (blue)
  - on/off switch
  - electrical connection 220 Volts / 50 HZ
  - air flow meters
  - air coolers (fans)
✓ EHV electronic cards
✓ Mounting accessories :
  - 316L stainless steel check valves with viton seal and glass ball
  - PTFE ozone tubes
  - PVDF tubes for electron tubes and fittings
  - air filters
✓ Ozone generators

Other devices are available, Ozonex adapts its manufacture according to the volume and flow rate of the pool concerned.

OZONATOR FOR COMPLETE DISINFECTION

EX100-NG / glass ozone generator

(for pools up to 180 M³)

Power indicator

Ozone flow indicator

Ozonator box
(in A.B.S IP65)

Power output
220V

Case ventilation

Air flow meter
(air intake adjustment)

Ozone output

Air filter

Designation

- ✓ IP65 A.B.S. ozonator enclosure
- ✓ 1 EHV card
- ✓ 1 ozone generator
- ✓ 1 solenoid valve
- ✓ 1 ozone outlet
- ✓ 1 air filter
- ✓ 1 power supply
- ✓ 1 internal fan
- ✓ 1 stainless steel check valve 316L
- ✓ PTFE tube for ozone injection

Query your entire connected customer base in the blink of an eye on your office computer with our customer management application and modify, refine and optimise each pool in one click.

Home automation makes your daily work easier and becomes your pool assistant, relieving you of many tasks (chlorine shock, adjustment of filter pump time slots, etc.) with little added value, allowing you to concentrate on the essential tasks.

Home automation allows you to boost your additional sales, for example by offering the sale of consumable products when customers run out.
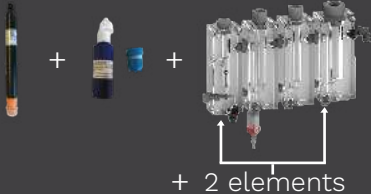

By offering My Ozonex to your customers, you can reassure them with a maintenance service that sets you apart.

Options for automatic regulator

Amperometric probe option for active or total chlorine calculation including :

Material	Reference	Designation
+ + + 2 elements	KT-AMP-DM	✓ 1 PROMINENT amperometric probe ✓ 1 gel + membrane kit ✓ 1 probe holder (1 element) ✓ 1 water flow sensor (1 element)

Filter pressure sensor option :

Material	Reference	Designation
	KT-PRS-DM	✓ 1 filter pressure sensor

Air analysis option :

Material	Reference	Designation
	KT-AAH-DM	✓ air temperature ✓ atmospheric pressure ✓ hygrometry

pH+ or anti-algae regulator option :

Material	Reference	Designation
+ + +	KT-PH-DM	✓ 1 electromechanical dosing pump (flow rate according to the volume of the pool) ✓ 1 electronic relay card (My Ozonex) ✓ 1 pump connection and cannula kit ✓ 1 injection rod
